

Note: At WCA, we refer to our field trips as "Educational Field Trips" because they encompass more than just guided tours, they also include engaging STEM programs. We take every measure to ensure our students are safe and well cared for during these trips. Although participation in these trips is mandatory and graded, we understand that some parents may prefer that their child not participate. In such cases, students will be given alternative assignments. We encourage all students to take advantage of learning opportunities outside the classroom.
